## COMPETITIVE PROGRAMMING

RUET Analytical Programming Lab

**Instructor for Beginner Programming Sessions**

📅 October 2023 – Present

📍 RUET, Rajshahi

National Collegiate Programming Contest (NCPC) 2023

**Finalist**

📅 March 2024

📍 Jahangirnagar University

Inter University Programming Contest (IUPC) 2024

**Participant**

📅 January 2024

📍 Shahjalal University of Science and Technology

CodeChef

**23rd Place, September Short Challenge 2023 Division 4**

📅 September 2023

📍 Online

CodeSmash: Intra-RUET Freshers Programming Contest

**2nd Runner-Up**

📅 December 2023

📍 Department of CSE, RUET

CodeSmash: Intra-RUET Freshers Programming Contest

**Problem Setter**

📅 December 2024

📍 Department of CSE, RUET

HackerRank

**Problem Solving (Intermediate) Certificate**

📅 June 2025

📍 Online

LogicLifters Mentorship Program Level 1

**Participant, Season 2**

📅 May 2023 – September 2023

📍 Online

## INDUSTRIAL ATTACHMENT

Industrial Attachment

**Kahf Bangladesh**

📅 February 2026

📍 Dhaka, Bangladesh

## CERTIFICATIONS

HackerRank

**Python (Basic) Certificate**

📅 September 2025

📍 Online

HackerRank

**SQL (Intermediate) Certificate**

📅 September 2025

📍 Online

## EDUCATION

B.Sc. in Computer Science and Engineering

**Rajshahi University of Engineering & Technology (RUET)**

📅 2022 – Present

📍 Rajshahi, Bangladesh

Fourth Year (Odd Semester)

Current CGPA: **3.11**

## EXPERIENCE

AI & Machine Learning Intern

**FlyRank AI Internship Program**

📅 July 2026 – Present

📍 Remote

- Selected for the Machine Learning track of FlyRank's AI Internship Program.
- Building practical machine learning solutions through project-based assignments.
- Working with modern AI development workflows, data preprocessing, model development, and evaluation.
- Collaborating with mentors and fellow interns in an industry-oriented development environment.

## SKILLS

Python

Machine Learning

Data Science

Git

Problem Solving

## PROJECTS

- **University Students Hall Management System**
  - Developed using Java and MySQL.
  - Managed student accommodation records and administrative operations.
- **Telegram-Bot-Controlled Embedded System**
  - Built using Raspberry Pi and Python.
  - Worked on hardware integration and initial software development.
  - Participated in testing and system validation.
